ON FARMS

SPARROWS

...SUPER BIRDXPPELLER PRO IS THE SOLUTION!

Sonic repeller  
uses intermittent  
distress calls to create  
a "danger zone"  
that frightens  
infesting birds  
away for good.  
PREDATOR  
cries help scare  
all the birds!

SUPER

# BirdXPeller PRO

PROGRAMMABLE SPECIES-SPECIFIC REPELLER

## ACTUAL DISTRESS CRIES

Choose any or all of 8 sounds, including predators to give the birds even more of a sense of danger. Then customize by choosing volume and silent time between sounds.

## HARMLESS

Super BirdXPeller PRO uses occasional natural sounds to chase away the birds, but it does not harm them.

## HEAVY-DUTY

Sturdy control box and four powerful speakers designed to last in an outdoor environment.

## EASY OPERATION

Keep the control box close at hand, and use the 100 cords to place the speakers wherever the birds are. Use 110vAC electricity or 12vDC battery.
